

## AUSTRALIAN MACHINERY HIRE

was formed back in 1995. AMH is a family owned and operated entity, supplying cranes throughout Australia on a dry-hire basis.

Whilst starting initially with a very small number of Pick & Carry Cranes, AMH has expanded to a fleet of over 20 cranes ranging from 12T Slew cranes to 145T Rough Terrain Cranes.

We only have late model cranes in our dry-hire fleet and are able to supply quality cranes, 12T to 145T, at affordable rates.

Whilst we remain a small company and operate in the smaller mobile crane end of the market, the fact that we have been able to keep our overheads to a minimum has allowed us to remain very competitive against the major players. Not only on price but serviceability to our clients. You are talking with the Owner and not an employee every time you choose to deal with **AUSTRALIAN MACHINERY HIRE!**
